

Accessible Information Standard (AIS)

The Accessible Information Standard aims to make sure that disabled people have access to information that they can understand and any communication support they might need.

Should you have any requirements or know of a patient who needs support please let the Practice know and we will help provide support whether that is by providing information in large print or putting a patient in touch with British Sign Language (BSL), an interpreter, email or braille.

Below are some easy read leaflets that you might find useful:

Charities including Action on Hearing Loss, CHANGE, Sense and the Royal National Institute of Blind People (RNIB) will also be able to provide further support.
